- All of the basic formulations are available on request from the customizing Laboratories and most especially from MasterPharm who will custom develop the HGH/Elegen formulations along with the duplication of the Snake Venom Lifting Serums.
- These specialty formulations will be hush, hush and passed along only by referral, and very expensive.
- HSN and QVC are great vehicles as well as Gunthy Renker Infomercials for most all of the Cosmetic Products.
- One of the number one products for Home Shopping is the Dreams Rugs line. It has a very high price point and does not require an invention to create. The price point should be in the 125 to 300 dollar range, more if marketed in the retail environment.

I hate to unload the Dishwasher so I solved that problem

Hidden Treasure by Fisher and Paykel is a compartmented series of dish washing systems that are totally disguised as beautiful cupboards. The Cupboards are Twin cupboards especially designed for Plates and Dishes, Cups and Glasses, and 2 for silverware, Load dirty utensils and Dishes and press secret wash buttons located in the control panel and wash only what you need. How many times have you ran out of just glasses in the Summer? Or just Forks and knives?

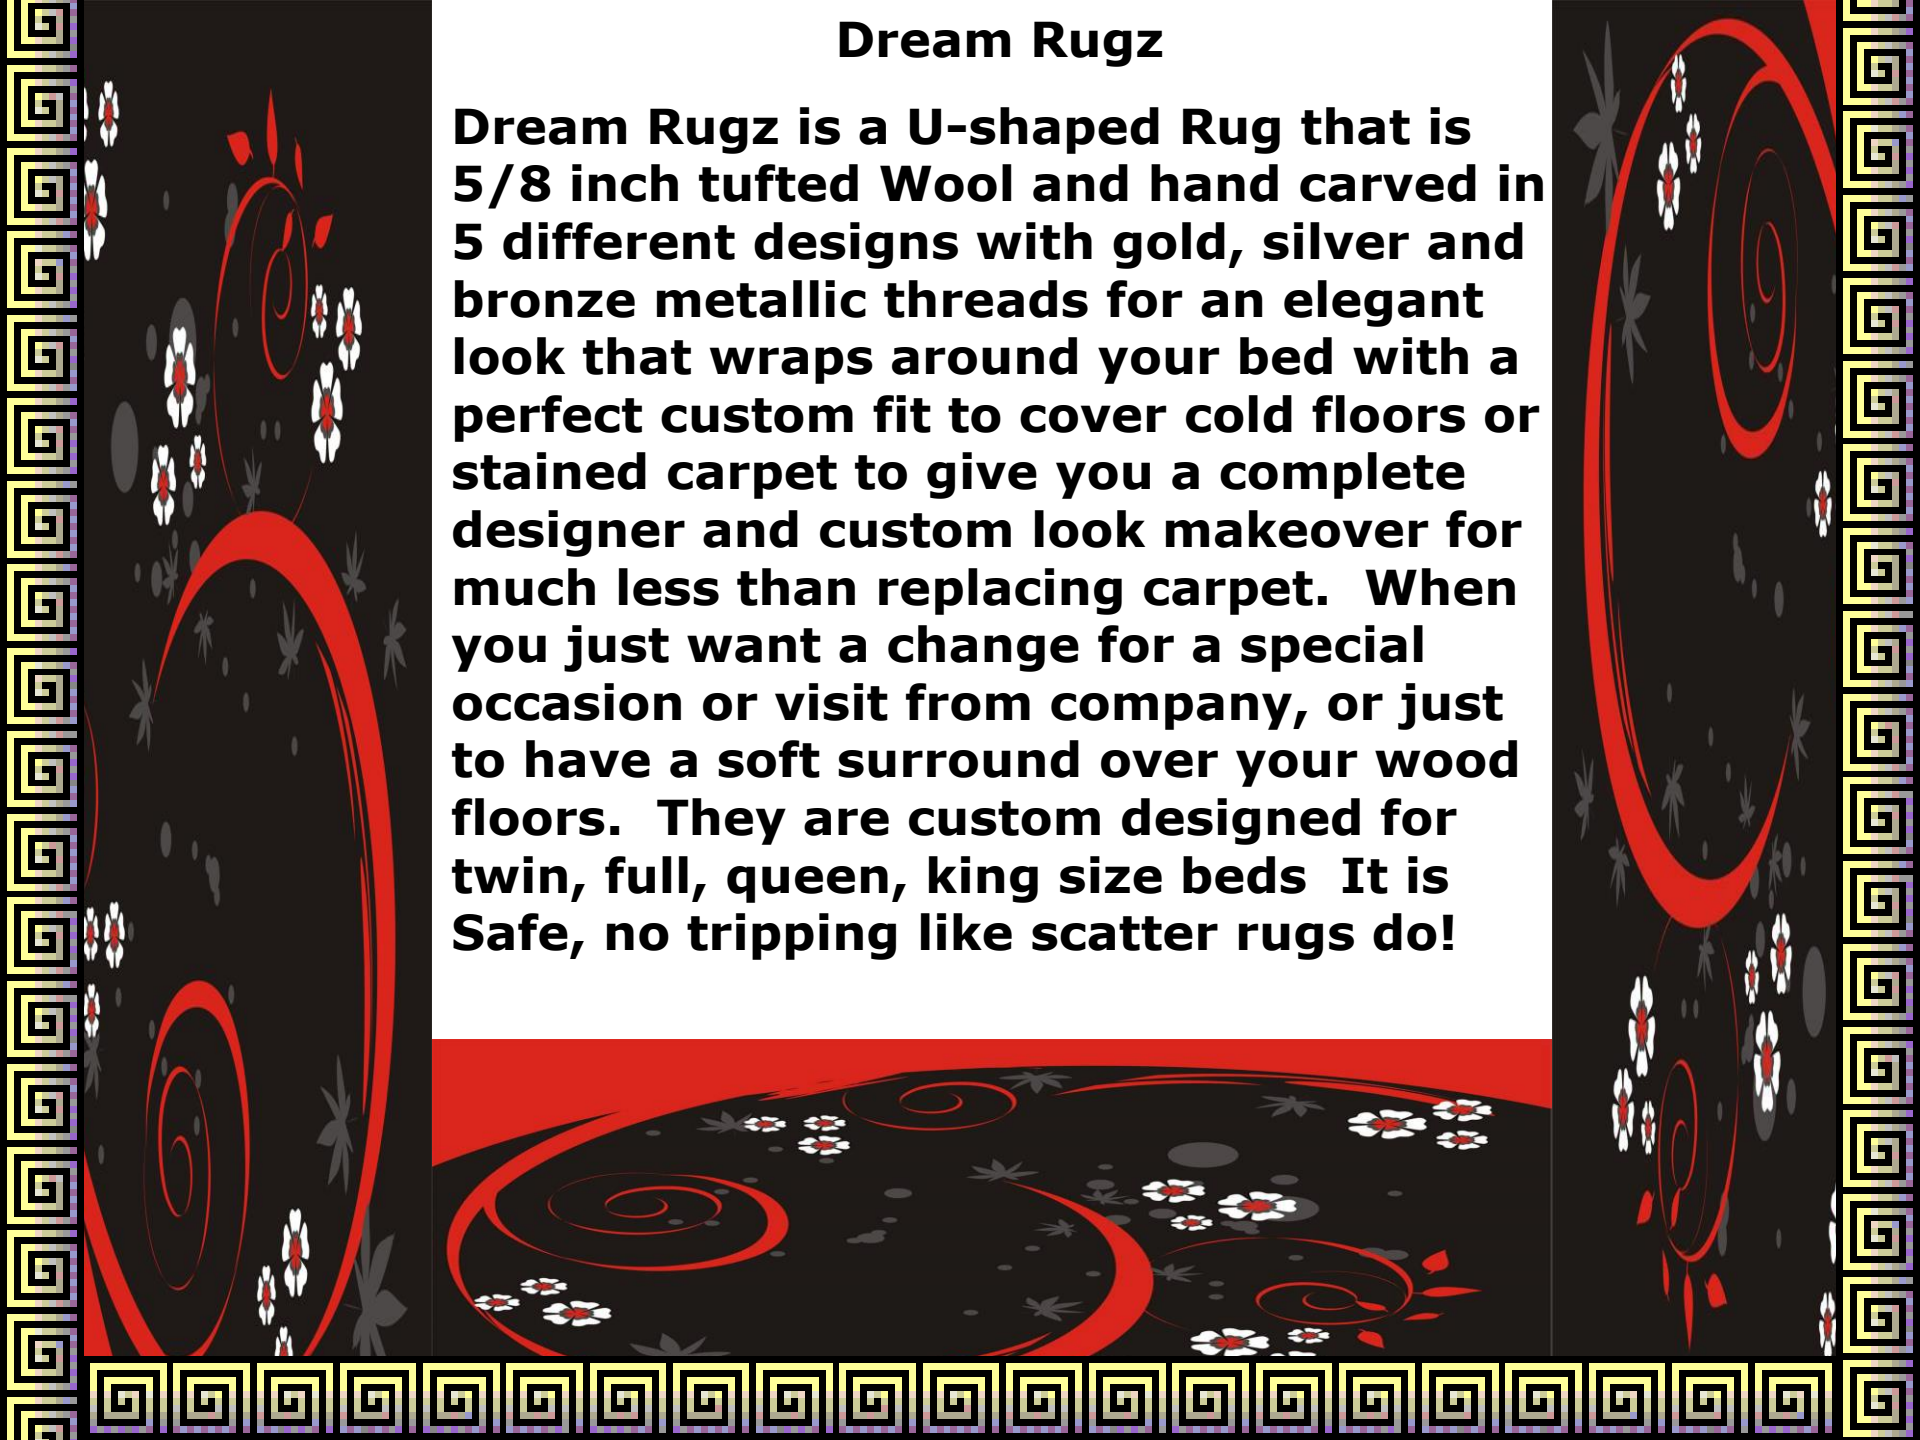

Now you only wash what you need and better yet, after it is washed it is already right where it should be already put away. One is filled with spotless, clean dishes and the Twin cupboard is all ready to receive the dirty dishes...No more loading and UNLOADING your dishwasher. EVER...

Your Standard Fisher and Paykel Drawer dishwasher will receive your Pots and Pans as usual but all the rest will already be waiting for you, all put away saving you precious time every single Day

The future is here now, and IT'S ABOUT TIME.

Dream Rugz

When you just want a change for a special occasion or visit from company, or just to have a soft surround over your wood floors. They are custom designed for twin, full, queen, king size beds It is Safe, no tripping like scatter rugs do!

Stained Glass Inserts from our Factory in Mexico

These inserts will revolutionize the building and custom home window industry. They slip between 2 panes of window glass and are manufactured from a plastic/vinyl resin custom made to any style shape or color and are made to mimic stained glass.

This will allow any bedroom or bathroom to be completely private and yet allow beautiful colours to bathe your room or bath with extraordinary prisms of color to alter mood or bask in beauty and can easily be changed out at your whim. These inserts can eliminate the need for window treatments by covering just the lower pane where there is no view to enjoy, an especially good application for apartments and condos. We can also manufacture just a plastic insert for a very affordable market licensed with Millgard or Pella windows. We can introduce them and the dishwasher compartments in our own builds.

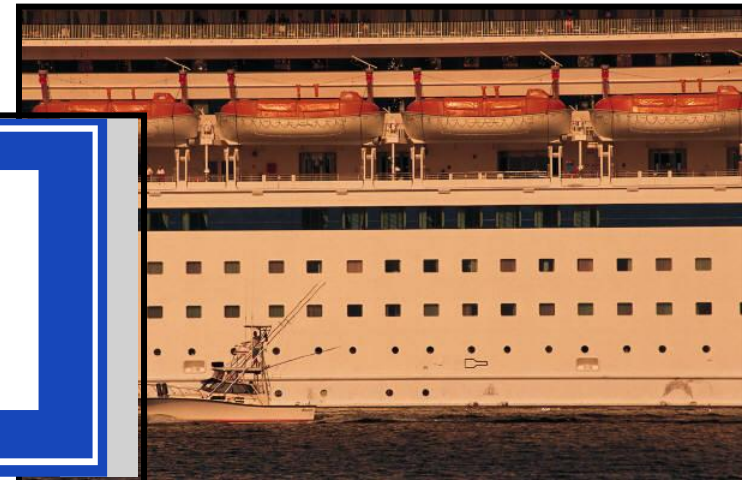

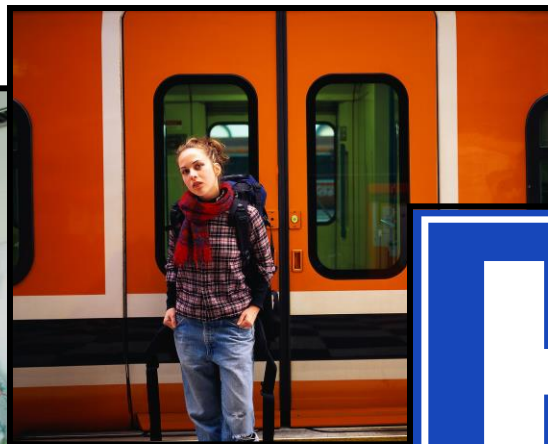

**Disney or Cartoon Characters
NFL and NBA Team Logos too.**

The Pure Clean applications are virtually unlimited. All Hospitals, Foster Homes and Residential Care Facilities, Doctors Offices, Homes, Trains, Planes, Boats and Autos as well as personal atomizers and Wipes provide a stable and varied Market. The Cruise ship applications would save millions to avoid a Norovirus outbreak. I especially like the personal applications with the purse size 6-pack to keep in your car or purse. This product is fantastic and was developed for use in the Intel Clean Rooms for Chip Productions. This is a 10 in potential profit and a 5 or 6 to produce because of Marketing.
